### **District Vision:**

~ The Brookings School District will be an exemplary, innovative learning community recognized and aligned for excellence whose graduates are prepared to excel in an ever-changing and inter-connected world.

### **District Mission:**

~ The Brookings School District prepares all learners to be confident engaged citizens empowered to impact the ever-changing and inter-connected world.

### **District Core Values:**

- LEARNERS FOR LIFE
- SAFE AND SECURE ENVIRONMENT
- STUDENT CENTERED APPROACH THROUGHOUT THE DISTRICT
- STUDENTS, PARENTS, STAFF, AND COMMUNITY AS PARTNERS
- INTEGRITY AND TRANSPARENCY THROUGHOUT THE ORGANIZATION

These core values serve as the premise for the Brookings School District operational and organizational processes. The core values will serve to guide students, staff, administration, and board of education decisions and actions. These core values provide an essential foundation for the development of the district's Smart Start plan.

## Guiding Principles:

The COVID-19 global pandemic has significantly impacted our communities and the various functions of our communities. Nearly everyone was forced to reconsider how services were delivered. School districts were no different. Amidst the school shutdown in the spring of 2020 and the return to learn for the 2020-2021 school year, school districts discovered practices that proved to be more effective than others. In the Brookings School District, our community of educators and learners discovered the value of face to face instruction. The relationships forged in the classroom contribute to the social and emotional wellbeing of all – both children and adults. Further, we discovered the value of relevance in the teaching and learning processes. In addition, we also noted the powerful impact of learner voice, choice, and pacing in the educational process on learner outcomes and learner success.

As a result of these discoveries, the Brookings School District plan embraces these discoveries. Our district leaders have realized the need to embrace practices to support the social and emotional needs of our learners. Futhermore, district leaders recognize the powerful impact of practices embracing learner voice and choice. The value of creative problem solving through application and creation were also noted as value-added instructional practices. Therefore, as the Brookings School District leadership developed the plan for classroom instruction for the 2021-2022 school year, the realization was quite clear – the Brookings School District must strategically invest in and support further staff development and community awareness around the areas of project and problem based learning along with further investments in support and development of practices embracing student voice and choice through personalized and customized learning.

The plan you have before you provides a road map for HOW school will operate in the 2021-2022 school year. As the school year progresses, WHAT happens in the school is equally important. Watch for increased efforts supporting personalized and customized learning along with ongoing efforts to support problem and project based learning all grounded in the fundamental importance of community and meeting the social and emotional needs of learners.

Several perspectives have influenced the Brookings School District plan. The District leadership considered recommendations from organizations such as the South Dakota Department of Health, the South Dakota Department of Education, the Center for Disease Control, the American Academy of Pediatrics, as well as input from local health care officials, the City of Brookings, staff, community members, school board members, and parents.

The overarching principles guiding our plan to return to school are as follows:

- Student and staff safety are our highest priority as we return to school.
- This plan acknowledges feedback via survey from parents and staff.
- ~~The plan acknowledges statements made by Governor Kristi Noem on July 28, 2020.~~
- ~~Contingent upon phases, f~~For School ~~operations~~reopening, it is critical for all administrators to implement mitigation strategies (e.g., social distancing, ~~face masks cloth face coverings~~, hand hygiene, and use of ~~cohorting~~). ~~CDC guidelines – July 23, 2020~~
- ~~Our plan incorporates the July 8, 2020 message from the South Dakota Department of Education stating, “Schools will provide face-to-face instruction as much as possible throughout the 2020-21 school year.” The Brookings School District plan is designed to be adaptable and may be revised depending on the level of COVID-19 transmission within the community as we “balance public health considerations with the known benefits of the full school experience (academic, social-emotional, physical) (from the July 8, 2020 Department of Education presentation).~~
- ~~Accommodations will be made for documented vulnerable individuals. Our plan is designed to accommodate learner needs, and will make specific accommodations for vulnerable populations, including medically fragile youth, students who live in poverty, students who have specific health care needs or disabilities, or students that have developmental challenges.~~The accommodations are made for the learner on a case-by-case basis upon written request, with the intent to provide a safe return to school. Please see the Supplemental Fact Sheet addressing the risk of COVID-19 in Preschool, Elementary and Secondary Schools While Serving Children with Disabilities.
- Consistent with the guidance from the South Dakota Department of Education, our plan allows school sites and school leaders to take steps to mitigate the spread of COVID-19 while still continuing to focus on and emphasize student learning.
- Our plan attempts to reasonably implement guidance from:
  - Center for Disease Control
  - American Academy of Pediatrics
  - United States Department of Education
  - South Dakota Department of Education
  - Federal and State elected officials
  - South Dakota Department of Health
  - Local Health Systems
  - Local stakeholders
- ~~Following the directive from the United States Department of Education and the South Dakota Department of Education and consistent with the American Academy of Pediatrics, Q~~our goal is to have students physically present for learning in the school facilities as much as possible. The district will apply standards of expectation

Formatted: Strikethrough

Formatted: Strikethrough

Field Code Changed

Formatted: Underline

and behavior accordingly. Measures and steps to be taken dependent upon our phase may include:

o **NECESSARY PHYSICAL DISTANCING**

- ~~The district will take steps to adhere to physical distancing suggestions. In doing so, the district realizes that it is improbable, if not impossible to ensure distancing at all times and at all places on district campuses. Every effort will be made to follow student distancing of 3 feet to 6 feet apart when feasible.~~

o **INCREASED CLEANING AND DISINFECTING**

- ~~The transmission of COVID-19 primarily occurs via droplets. As the district applies efforts to physically distance, the virus may still survive on certain surfaces for some time. Cleaning and disinfecting school spaces will occur regularly. Surfaces used frequently will be cleaned and disinfected daily and as often as possible. Shared equipment will be disinfected frequently. Proper hand washing will be emphasized for all students and staff.~~

o **SCREENING**

- ~~The district will expect parents to conduct temperature checks daily for their student. It is essential that parents serve as the first line of screening prior to a student boarding a bus or entering a school. Definitions of Symptoms for Reportable Illnesses.~~
- ~~Any individual with a temperature of 100.4 degrees Fahrenheit or higher without medication should not be present in school. The district will provide a check list for parents regarding preliminary screenings before boarding a bus or attending school. The district will conduct temperature checks of students suspected to have a fever or feeling ill. Periodically, the district may conduct temperature screenings of students. Staff members will have temperature screenings daily.~~
- ~~Anyone demonstrating a temperature of 100.4 degrees Fahrenheit or higher will be sent home immediately. Further,~~
- ~~Unless vaccinated, if a student or staff member has a known exposure to COVID-19 ~~or has COVID-19 symptoms~~, the individual is directed to quarantine ~~to~~for the current SD Department of Health guidelines. 14 calendar days.~~
- ~~Anyone with a positive COVID-19 test must isolate, according to the SD Department of Health guidelinesfor 10 days. The student or staff member can be with others after:~~
  - ~~At least 10 days since symptoms first appeared **and**~~
  - ~~At least 24 hours with no fever without fever reducing medication **and**~~
  - ~~Symptoms have improved~~

Formatted: Font: Bold

Formatted: Font: Bold

Formatted: Font: Bold

Formatted: Font: Bold

~~○ COVID-19 TESTING~~

- ~~▪ Parents and staff are asked to coordinate with local health authorities regarding testing if there is a suspected exposure to COVID-19. In the absence of testing options or availability, staff and students should follow local and state health department guidance for exclusion from school. If a student or staff member has a positive COVID-19 test, the individual will be isolated from school and school-related activities for 10 days. The student or staff member can be with others after:
 
  - ~~• At least 10 days since symptoms first appeared **and**~~
  - ~~• At least 24 hours with no fever without fever-reducing medication **and**~~
  - ~~• Symptoms have improved~~~~
- ~~▪ As in past practice with student long-term illness, every effort will be made to collaborate with parents/guardians to provide for the ongoing educational needs of students in quarantine or isolation.~~

~~○ FACE COVERING/MASKS~~

- ~~▪ Face masks will be deemed optional.~~
- ~~▪ The district will require students and staff to appropriately wear masks when physical distancing (3-6 feet) is not achievable. Appropriate positioning of the mask covers the nose and mouth. There is ongoing evidence suggesting the importance of universal face coverings as a means to interrupt the spread of COVID-19 (<https://www.cdc.gov/media/releases/2020/p0714-americans-to-wear-masks.html>). The district will provide masks for individuals who need them supplied. Cloth masks must be washed in order to be properly used. Students and staff members must have a clean mask each day. The mask should follow school district policies and procedures for dress code.~~

~~○ HAND SANITIZER~~

- ~~▪ The district will provide hand sanitizing dispensers throughout the school for student and staff access. Hand sanitizer will contain at least 60% alcohol and serve as a mitigating factor for the spread of COVID-19. Hand sanitizing will occur in addition to hand washing.~~

~~○ VISITORS~~

- ~~▪ School district facilities will be open for primary users. However, other than related educational services, including but not limited to special education OT/PT, speech/language, counseling, interpretive services, etc. no parents or visitors shall be allowed in the building Monday through Friday from 7:30am-4:00pm other than the front entrance area. Visitors may receive approval to enter the building and are encouraged to but must have have a scheduled appointment and are required to~~

Formatted: Font color: Red

Formatted: Font: Not Bold

Formatted: Font: Not Bold

Formatted

follow ~~district screening and mask~~ requirements. Virtual platforms may be utilized when and as needed.

- ~~• The district will work collaboratively with higher education institutions for pre-professional experiences.~~

~~○ FIELD TRIPS~~

- ~~• In an effort to minimize exposure, field trips will be suspended until further notice.~~

○ FACILITY USE AGREEMENT

- School district facilities may be available to outside clubs or organizations. ~~However, in order to utilize and access facilities (both internal and external), the organization must submit and have approval of a facility use plan consistent with district policy and the parameters/guidelines following the Bobcat Tracks Plan.~~

~~○ ATTENDANCE~~

- ~~• Regardless of delivery model, student attendance requirements consistent with student handbooks will occur.~~

○ COMMUNICATION SYSTEMS

- ~~Regular U~~updates will be posted on the COVID-19 Resource page on the Brookings School District website. In order to maintain the safest and secure learning environment, the Brookings School District asks parents/guardians to communicate promptly with their child's school in the event of a positive diagnosis or absence related to COVID-19.

### **Modified School Calendar to begin the 2020–2021 School Year**

In an effort to support teachers, parents, and students in the launch of the new school year amidst a global pandemic, the Brookings School District will make modifications to the school calendar as follows:

#### **August 17, 18, 19, 20, 21— ALL STAFF BACK TO SCHOOL— ONE WEEK**

The District will provide staff a tiered back to school time. While the district typically affords two days for the back to school time for staff, this year we will utilize a full week of back to school orientation. The week will include back to school activities and new teacher orientation along with time for teachers to prepare their classrooms for social distancing, work on site level planning and preparation for students, coordinate between face to face and remote/distance learning instructors, along with professional development on the newly adopted district wide learning management system.

#### **Aug. 24, 25, 26, 27, 28 — PARENT/TEACHER BACK – 2 SCHOOL DAYS.**

In previous years, the Brookings School District implemented Back-2-School Days where parents would and students would meet individually by appointment with each of their teachers. In the Back-2-School appointments, students, parents, and teachers would discuss learning expectations in each of the models — Face-to-Face, Remote/Distance, and Hybrid. Additionally and as needed or as deemed appropriate, teachers would provide students with pre-assessments gauging student achievement in areas such as reading and mathematics. Appointments may be scheduled outside of the regularly scheduled day and reflected accordingly in the teacher work day. Additionally, this week may include building meeting and collaboration time as necessitated by the building level administrator.

#### **Aug. 31 FIRST FULL REGULAR DAY**

The school day would mark the first full day with students.

## **General Expectations: (move page 8-10 to page 3)**

The goal of the Brookings School District is to provide direct face-to-face educational services for the students. However, given the ongoing uncertainty, developments, and spread of COVID-19, the district has prepared for variations of educational services beyond the face-to-face instructional model including a hybrid learning model and a remote/distance learning model. Through each of these plans, the district maintains an expectation of equity for learning based upon student need. In other words, some students may need more direct services and interventions than others based on a variety of factors including access, preparation, support, and other related factors. Further, the district is committed to uphold both integrity as well as continuity in the educational services provided to students regardless of the model implemented. If students are opting for or are required to engage in remote/distance learning, the district will endeavor to provide, to the extent possible, similar experiences that would occur in a typical in-person school day. Finally, ~~and ultimately~~, the Brookings School District is committed to providing instructional relevance and rigor while maintaining the valuable relationships essential for success in school and the world. Student success is grounded in strong relationships, learning that is relevant, and expectations that are realistic, yet rigorous.

The Brookings School District will adhere to the following expectations for learners, teachers, and families regardless of the learning model provided in the situation the district may find itself as the COVID-19 implications continue:

- For students unable to attend school due to COVID-19 related health limitations the district will maintain every effort to provide educational programming.
- Class periods/times will begin on time and current policies around turning in work will be maintained.
- From time to time, some classes may apply videos/instructions via a video source that will need to be completed by students prior to class.
- From time to time, classes may be recorded to allow ongoing and future access by students and families.
- Students are expected to give their best effort, exhibit their best class behavior regardless of the location and model and attend classes regularly, health permitting.
- ~~Students should have their cell phones silenced and put away during instructional times.~~
- ~~Teachers will be well prepared with instructional services.~~
- Student assessments of academic progress will include both formative as well as summative assessments to gauge and adapt instructional practices to learner needs.
- Brookings School District staff will apply the principles of the professional learning community models in the educational approach to students by focusing on four key questions: 1) What do we want students to know and be able to do? 2) How will we know when they have learned it? 3) What will we do when students have not learned it? 4) What will we do to extend the learning when the student already know the content?

This four question approach allows the district to focus on the specific, high priority academic standards and needs of the learner.

- The Brookings School District recognizes the impacts of COVID on the wellbeing of students and staff. The district will develop an employee support program within the district for staff mental and emotional wellbeing. Additionally, the district will employ a district wide social worker who will work closely with school based counseling services to support the emotional and social needs of the students.
- The Brookings School District will provide meals for both in person as well as remote/distance learners as allowed by the United States Department of Agriculture to address any concerns regarding food insecurity.

**Formatted:** List Paragraph, Bulleted + Level: 1 + Aligned at: 0.25" + Indent at: 0.5"

## **SCHOOL REDEFINED:**

The Brookings School District recognizes the global pandemic has challenged many of the traditional structures. Work spaces, the type of work, and the connections made among individuals has continued to evolve. Schools are not exempt from the social and economic disruptions facing the world today. From grading to grade levels and time in school compared to learning and tasks completed, every function of the educational process and product is under consideration. The Brookings School District understands and excitedly embraces the opportunity to further redefine the long held traditional views of school to better serve our learners in the 21<sup>st</sup> Century and beyond. Things will never be the same.

Our world has changed! We have observed how much and to what extent as offices moved from the corner to the kitchen table and shopping moved from carts to clicks. We have observed and experienced the value of relevance, the importance of rigor, and the significance of relationships during the Covid-19 shutdown. In a 21<sup>st</sup> Century knowledge based economy, the learner needs have shifted from the agrarian and industrial models to a model of individual responsibility, social justice, equity, educational continuity, adaptability, and production. The currency of time has been replaced by the currency of production. Our educational systems must not just recognize, but embrace these changes to remain relevant both today, as well as tomorrow and well into the future! Our society and American way of life is grounded in the work of the public education system. Our plan represents efforts to honor our past, embrace the future, all the while being mindful of the importance and value of a quality public educational experience in the Brookings School District.

Formatted: Font: (Default) Arial, Font color: Red

## OPERATIONAL OPTIONS DEFINED:

The Brookings School District ~~has adopted face-to-face learning as the primary delivery model. However, should circumstances warrant, the Brookings School District is prepared to implement either a remote or hybrid learning model. is committed to serving the students and communities that comprise the Brookings School District as effectively and efficiently as possible. Given the ongoing uncertainty of the COVID-19 Global Pandemic, the Brookings School District has created three models for instruction as we begin the 2020-2021 school year.~~

### FACE-TO-FACE LEARNING MODEL:

Face-to-face instruction provides a return to school campuses and classrooms where students will interact directly with their teachers and their peers. The school day would follow the adopted school day schedule and include core classes as well as other subject areas including encore classes and co-curricular courses. ~~Overall, this~~This learning model represents the typical school environment. ~~However, the model includes several significant changes to enhance the health, safety and well-being of students and staff.~~ Overall, the goal of the face-to-face learning model is to create an environment that provides opportunities for students to engage in a school experience, where students still interact directly with their teachers and classmates while still embracing practices and safeguards that protect the health and well-being of both learners and staff members.

### REMOTE/DISTANCE LEARNING MODEL:

The remote/distance learning model is ~~designed for families who want to maintain connections to the enrolled school building and classrooms, however, due to any number of reasons, do not feel comfortable sending their child(ren) back to the face-to-face school environment in August. Further,~~ contingent upon ongoing developments of COVID-19 in the Brookings School District, ~~in~~ consultation with state and local agencies the school district will be prepared to fully implement remote/distance learning.

~~Families who do not feel comfortable in a face-to-face learning environment may opt for a remote/distance learning model. If a family opts for a remote/distance learning delivery, the minimum amount of time for that commitment is one semester of instruction. Families must indicate their preference for a remote/distance learning option no later than 12:00pm on August 7, 2020. Failure to indicate preference will result in face-to-face learning.~~

In the remote/distance learning model, students will attend school remotely. The model will incorporate regular real-time and in-person interactions with teachers. The model would provide teacher-guided and facilitated student learning to allow for flexibility in educational experiences, ~~during these uncertain times.~~ The model reflects the ongoing developments

within the Brookings School District to customize and personalize the learning experiences of students. In the remote/distance learning model, students may work on assignments within an established daily schedule and will be required to interact with teachers and peers using web-based communications and class session tools. Ultimately, the model reflects the efforts of the Brookings School District to provide a high-quality and effective educational experience, ~~to the student despite the location or setting.~~

### **HYBRID LEARNING MODEL:**

In the event that requirements necessitate a delivery model other than face-to-face, the hybrid model may be considered as an alternative delivery system.

The hybrid learning model represents a blended approach between the ~~face-to-face~~ and the remote/distance learning model. The hybrid learning model will be adaptive to the individual schools within the Brookings School District.

Through a hybrid approach, the district will allow for limited ~~face-to-face~~ learning and will blend the ~~face-to-face~~ learning experiences with the remote/distance learning model. The approach accounts for variations in the way the individual schools within the Brookings School District can provide instruction given various federal and state agency guidelines, the impacts of COVID-19 spread within the community, and other factors such as local, state, and federal policy. Similar to the remote/distance model, in this model, students will complete assignments within a daily schedule and will interact with teachers and peers using web-based communications and class session tools.

## PHASED APPROACH AND DISTRICT DECISION MAKING:

The Brookings School District will consider different phases of impact and apply a decision making tree regarding operational plans for the district functions in a pandemic environment.

## CHANGE IN SAFETY LEVELS

Due to the rapidly changing nature of the COVID-19 pandemic, COVID-19 protocols are continuously reviewed by the district administrative team. The school district works closely with the SD Department of Health (SDDOH) and local public health agencies to monitor COVID-19 in Brookings County and surrounding areas.

The Brookings School District is actively monitoring COVID-19 indicators to determine safety level movement. ~~Any one or more of the following indicators has the potential to trigger movement from one color to another.~~

### ~~Movement to Red from Green or Yellow (initiate remote learning)~~

- ~~• Substantial rise in new COVID-19 cases relevant to the school district population~~
- ~~• Substantial number of cases tied to the school district cannot be tracked to known cases (i.e., uncontrolled community spread)~~
- ~~• Inability of the SDDOH to conduct case investigation of new COVID-19 cases~~
- ~~• Brookings Health System does not have the resources to treat all patients requiring hospitalization~~

### ~~Movement from Red to Orange (initiate hybrid learning)~~

- ~~• Sustained reduction in new COVID-19 cases at the school district (controlled community spread)~~
- ~~• SDDOH is able to conduct case investigation of new COVID-19 cases~~
- ~~• Brookings Health System has the resources to safely treat all patients requiring hospitalization~~

### ~~Movement from Yellow to Orange (activities)~~

- ~~• Activities and extra/co-curricular events may be postponed or suspended.~~

### ~~Movement from Orange to Yellow (initiate face-to-face)~~

- ~~• The number of infections decreases over a 14-day period.~~
- ~~• Evidence of isolated cases or limited community transmission, case investigations underway, no evidence of exposure in large communal setting, e.g., healthcare facility, school, mass gathering.~~

### ~~From Yellow to Green (initiate face-to-face new normal)~~

~~If one of the following are met:~~

- ~~• A proven, FDA-approved vaccine is available, and has been released to the public~~
- ~~• A therapeutic for prevention or treatment of COVID-19 shows a measurable impact on disease activity and is readily available to the community~~
- ~~• An extended period of no new infections in the school community as determined by school officials in collaboration with state and local health agencies~~

~~Furthermore, the phased approach to full re-entry will be impacted by community impacts and spread along with local, State, and Federal policy and impact considerations.~~

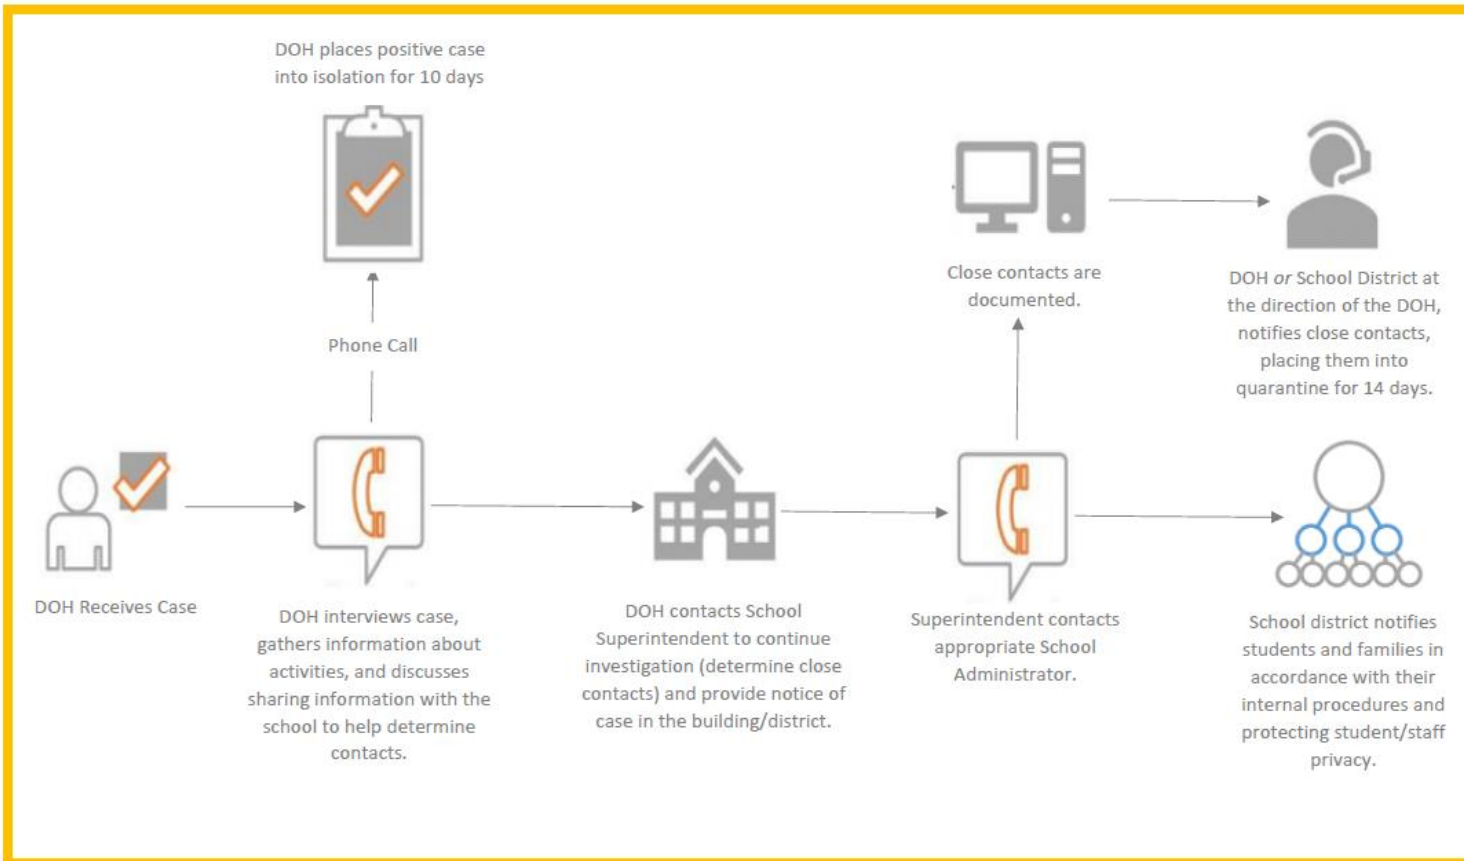

## THE BROOKINGS SCHOOL DISTRICT FOUR PHASE APPROACH

Phase	Phase I – Risk Low	Phase II – Risk Moderate	Phase III – Risk High	Phase IV – Risk Severe
Infection Risk Level	<p>No to minimal community transmission.</p> <p>Reinforce everyday preventative actions, ensuring proper ventilation within school facilities, including buses and maintaining cleaning and disinfection practices remain important. Monitor absenteeism among teachers, staff, and students to identify trends and determine if absences are due to COVID-19, symptoms that led to quarantine, concerns about being in the school environment and personal health and safety, or positive test results. <del>Anyone who tests positive for COVID-19 should stay home and self-isolate for the timeframe recommended by public health officials. Anyone who has had close contact with someone who has tested positive or is symptomatic for COVID-19 should be tested and stay home until receiving a negative result, or stay home and monitor for symptoms.</del></p>	<p>Minimal to moderate community transmission.</p> <p>Continue following strategies from phase I along with implementing mitigation strategies such as social distancing, use of <del>cloth</del> <u>face masks coverings</u>, reinforcing everyday preventative actions, and maintaining cleaning and disinfection. This also can include ensuring that student and staff groupings/cohorts are as static as possible, <del>and that mixing groups of students and staff is limited. Scheduled visitors are allowed.</del></p>	<p>Substantial, controlled transmission.</p> <p>Mitigation strategies are necessary. These include following all the actions listed above and also ensuring that student and staff groupings/cohorts are as static as possible with limited mixing of student and staff groups, field trips and large gatherings and events are canceled, <del>and communal spaces (e.g., cafeterias, media centers) are closed. No visitors allowed.</del></p>	<p>Substantial, uncontrolled transmission.</p> <p>The Brookings School District will work closely with local health officials to make decisions on whether to maintain school operations. The health, safety, and wellbeing of our students, teachers, staff and families are the most important consideration in determining whether school closure is a necessary step. <del>Communities can support schools staying open by implementing strategies that decrease a community's level of transmission.</del> However, if community transmission cannot be <del>controlled</del> <u>decreased</u>, school closure is an important consideration. Plans for virtual/remote learning will be in place in the event of a school closure.</p>

If a case is found in the Brookings School District, the district will work closely with the South Dakota Department of Health as we respond to the situation. Here is a graphic representation of the processes regarding an initiated case investigation of COVID-19 in the Brookings School District.

## ELEMENTARY & INTERMEDIATE (PK-5)

Phase	Phase I – Risk Low	Phase II – Risk Moderate	Phase III – Risk High	Phase IV – Risk High
<b>Infection Risk Level</b>	<p>No to minimal community transmission.</p> <p>Reinforce everyday preventative actions, ensuring proper ventilation within school facilities, including buses and maintaining cleaning and disinfection practices remain important. ## MIDDLE SCHOOL (6-8)

### MMS Guiding Principles & Phased Approach

Phase	Phase I – <u>Risk Low</u>	Phase II – <u>Risk Moderate</u>	Phase III – <u>Risk High</u>	Phase IV – <u>Risk Severe</u>
<b>Infection Risk Level</b>	<p>No to minimal community transmission.</p> <p>Reinforce everyday preventative actions, ensuring proper ventilation within school facilities, including buses and maintaining cleaning and disinfection practices remain important. Monitor absenteeism among teachers, staff, and students to identify trends and determine if absences are due to COVID-19, symptoms that led to quarantine, concerns about being in the school environment and personal health and safety, or positive test results. Anyone who tests positive for COVID-19 should stay home and self-isolate for the timeframe recommended by public health officials. <del>Anyone who has had close contact with someone who has tested positive or is symptomatic for COVID-19 should be tested and stay home until receiving a negative result, or stay home and monitor for symptoms.</del></p>	<p>Minimal to moderate community transmission.</p> <p>Continue following strategies from phase I along with implementing mitigation strategies such as social distancing, use of <del>face masks</del><del>cloth faced coverings</del>, reinforcing everyday preventative actions, and maintaining cleaning and disinfection. This also can include ensuring that student and staff groupings/cohorts are as static as possible, <del>and that mixing groups of students and staff is limited.</del> <del>Scheduled visitors are allowed.</del></p>	<p>Substantial, controlled transmission.</p> <p>Mitigation strategies are necessary. These include following all the actions listed above and also ensuring that student and staff groupings/cohorts are as static as possible with limited mixing of student and staff groups, field trips and large gatherings and events are canceled, <del>and communal spaces (e.g., cafeterias, media centers) are closed. No visitors allowed.</del></p>	<p>Substantial, uncontrolled transmission.</p> <p>The Brookings School District will work closely with local health officials to make decisions on whether to maintain school operations. The health, safety, and wellbeing of our students, teachers, staff and families are the most important consideration in determining whether school closure is a necessary step. <del>Communities can support schools staying open by implementing strategies that decrease a community's level of transmission.</del> However, if community transmission cannot be <u>controlled decreased</u>, school closure is an important consideration. Plans for virtual/remote learning will be in place in the event of a school closure.</p>
<b>CDC Information</b>	<p><del>No confirmed active cases; Monitor activities within the community and the</del></p>	<p><del>Cases confirmed; Consideration of limited student and staff interactions and travel. Monitor implications.</del></p>	<p><del>Case numbers growing; Consider limited student and staff interactions using distancing guidelines. All are required to</del></p>	<p><del>Cases spreading rapidly; Strict stay at home and social distancing guidelines applied. Suspend all district events and activities.</del></p>

Smart Start Plan – Brookings School District

				Flexible timelines will be established to allow students to complete work throughout the unit based on their needs.
<b>Attendance</b>	Teachers will provide all materials to students who are absent via Canvas.	Teachers will provide all materials to students who are absent via Canvas.	Attendance will be taken during Zoom sessions and virtual instruction.  Options will be provided for students who can't attend during this time.	Monitor and take attendance during Zoom sessions and virtual instruction.  Options will be provided for students who can't attend during this time.

## HIGH SCHOOL (9-12)

### BHS Guiding Principles & Phased Approach

Phase	Phase I – <u>Risk Low</u>	Phase II – <u>Risk Moderate</u>	Phase III – <u>Risk High</u>	Phase IV – <u>Risk Severe</u>
<b>Infection Risk Level</b>	<p>No to minimal community transmission.</p> <p>Reinforce everyday preventative actions, ensuring proper ventilation within school facilities, including buses and maintaining cleaning and disinfection practices remain important. Monitor absenteeism among teachers, staff, and students to identify trends and determine if absences are due to COVID-19, symptoms that led to quarantine, concerns about being in the school environment and personal health and safety, or positive test results. Anyone who tests positive for COVID-19 should stay home and self-isolate for the timeframe recommended by public health officials. <del>Anyone who has had close contact with someone who has tested positive or is symptomatic for COVID-19 should be tested and stay home until receiving a negative result, or stay home and monitor for symptoms.</del></p>	<p>Minimal to moderate community transmission.</p> <p>Continue following strategies from phase I along with implementing mitigation strategies such as social distancing, use of <del>face masks</del><del>cloth faced coverings</del>, reinforcing everyday preventative actions, and maintaining cleaning and disinfection. This also can include ensuring that student and staff groupings/cohorts are as static as possible, <del>and that mixing groups of students and staff is limited.</del> <u>Scheduled visitors are allowed.</u></p>	<p>Substantial, controlled transmission.</p> <p>Mitigation strategies are necessary. These include following all the actions listed above and also ensuring that student and staff groupings/cohorts are as static as possible with limited mixing of student and staff groups, field trips and large gatherings and events are canceled, <del>and communal spaces (e.g., cafeterias, media centers) are closed.</del> <u>No visitors allowed.</u></p>	<p>Substantial, uncontrolled transmission.</p> <p>The Brookings School District will work closely with local health officials to make decisions on whether to maintain school operations. The health, safety, and wellbeing of our students, teachers, staff and families are the most important consideration in determining whether school closure is a necessary step. <del>Communities can support schools staying open by implementing strategies that decrease a community's level of transmission.</del> However, if community transmission cannot be <u>controlled decreased</u>, school closure is an important consideration. Plans for virtual/remote learning will be in place in the event of a school closure.</p>
<b>CDC Information</b>	<p><del>No confirmed active cases; Monitor activities within the community and the region. Prepare for responsive action.</del></p>	<p><del>Cases confirmed; Consideration of limited student and staff interactions and travel. Monitor implications.</del></p>	<p><del>Case numbers growing; Consider limited student and staff interactions using distancing guidelines. All are required to</del></p>	<p><del>Cases spreading rapidly; Strict stay at home and social distancing guidelines applied. Suspend all district events and activities.</del></p>

Formatted: Font color: Red, Strikethrough

	<del>District open as usual.</del>	<del>District function limitations initiated.</del>	<del>wear face masks. Activities, field trips, and events postponed.</del>  <del>District functions are seriously limited.</del>	<del>District Closed.</del>
<b>BHS Plan</b>	Face-to-Face Learning Model	Face-to-Face Learning Model	Hybrid Learning Model	Remote/Distance Learning Model
<b>Rationale</b>	BHS has a plan to meet guidelines provided for the reopening of schools and local public health conditions warrant a return to school with appropriate safety precautions	In the event directed health measures require social distancing in the classrooms or limiting the numbers of students in a classroom.	In the event directed health measures require social distancing in the classrooms or limiting the numbers of students in a classroom.	BHS will be closed due to unsafe conditions.
<b>Cohort A</b>	In-Person	In-Person	A-A-Off-B-B; Wednesday reserved for cleaning, PD, virtual check-ins	Remote/Distance Learning
<b>Cohort B</b>	In-Person	In-Person	A-A-Off-B-B; Wednesday reserved for cleaning, PD, virtual check-ins	Remote/Distance Learning

## BHS Daily Procedures

Phase	Phase I	Phase II	Phase III	Phase IV
<b>Beginning of the day students</b>	Doors will be open from 6:00 am - 9:00 pm for academic access.  KEEP RIGHT: Doors will be marked ENTER and EXIT for main entrances at BHS and CTE buildings. All other doors will be locked for student entrance.	Doors will be open from 6:00 am - 5:00 pm for academic access. Smart Start Plan – Brookings School District

				Teachers will collaborate with case managers to support individual student learning.
<b>Attendance</b>	Teachers will provide all materials to students who are absent via Canvas.  Regular make-up work policy followed.	Teachers will provide all materials to students who are absent via Canvas.  Options will be provided for students who can't attend during this time.	Attendance will be taken during Zoom sessions and virtual instruction.  Options will be provided for students who can't attend during this time.	Monitor and take attendance during Zoom sessions and virtual instruction.  Options will be provided for students who can't attend during this time.

## **TECHNOLOGY REQUIREMENTS AND EXPECTATIONS FOR ACCEPTABLE USE:**

The Brookings School District teachers will use Canvas as the adopted district-wide learning management system (LMS) to provide instructional supports, communications, and overall connections to students and parents. The LMS will serve as the primary tool to share assignments, communicate with students, provide instructional supports, and guide the learning processes for students. Whether in a face-to-face, remote/distance, or hybrid learning model, students are expected to adhere to the district acceptable use policies and procedures. Further, students are expected to be courteous and respectful and to adhere to the student code of conduct which they agreed to when they signed the handbook at the beginning of the year. Overall, students are expected to work collaboratively with their teacher and their peers as the district provides instruction to learners.

~~Please contact the Brookings School District if your family is in need of a device or devices or connectivity support to access the internet.~~

## **~~SAFETY AND WELLBEING CONSIDERATIONS:~~**

~~The Brookings School District implement safety practices and safeguards to protect the health, safety, and wellbeing of both students and staff. Accordingly the Brookings School District is committed to working with local health care providers as well as local, state, and federal officials as we prepare to provide student instruction for the 2020-2021 school year. Here are the various considerations with the district as we consider the various models and options:~~

### ~~District Considerations~~

~~The district will apply, to the extent reasonably possible, the latest Center for Disease Control procedures along with local, state, and federal guidelines for safe school operations. The practices may include but not be limited to:~~

- ~~• Practice safe social distancing to the greatest extent possible~~
- ~~• Increase cleaning protocols throughout each campus, including replacing air filters more frequently~~
- ~~• Limit group gatherings~~
- ~~• Limit and/or eliminate external group use of school district facilities~~
- ~~• Require face coverings on campus~~
- ~~• Expect symptom screening for all staff and students~~
- ~~• Provide training for all staff on effective and safe practices~~
- ~~• Establish district-wide protocols for cleaning and disinfecting school facilities and equipment~~

### ~~Building/Campus Considerations~~

- ~~• Parents will provide assurances that students are screened daily for elevated temperatures and other potential related health considerations~~
- ~~• Post signage and provide lessons to strongly encourage frequent hand washing and hygiene practices~~
- ~~• Ensure hand sanitizer is available throughout the campuses in readily accessible locations and forms~~
- ~~• Ensure any staff or students who exhibit symptoms are not at school or in the workplace~~
- ~~• At the elementary and intermediate school levels (Hillcrest, Medary, Dakota Prairie, and Camelot), apply a cohort isolation model, where students on campus will spend time with a consistent group of students in their class including the classroom, media center, and playground. Interactions with other groups of students will be minimized. If a student displays symptoms of illness, the impact would be minimized to the student cohort group rather than the entire school building for student quarantines or other health and safety related interventions.~~
- ~~• At the middle school and high school (Mickelson Middle School and Brookings High School) each building will discourage and limit gatherings of students in the hallways and commons areas that would include signage, clear communications, and staff directives and monitoring.~~

- ~~The student numbers will be limited gathering spaces such as the cafeterias, gymnasiums, playgrounds, media centers, auditoriums, and other large gathering spaces to minimize exposure and potential impact.~~

#### Classroom Considerations

- ~~Classrooms will have stringent disinfection protocols and procedures in place.~~
- ~~Students will be provided direct instruction on hand washing and proper hygiene.~~
- ~~Hand sanitizer will be available in each classroom.~~
- ~~Students will be spaced in accordance to social/physical distancing recommendations (3 to 6 feet). This should allow for current classroom capacity with accommodations within the room for learners.~~

#### Transportation Considerations

- ~~Transportation may not be provided for all students due to distancing requirements and limitations on driver availability.~~
- ~~Students will be required to wear face coverings while on the bus. Face masks will be provided.~~
- ~~Transportation staff will clean and disinfect high contact areas between runs/routes each day.~~
- ~~Hand sanitizer will be available on each bus.~~
- ~~Each bus will be disinfected thoroughly at the end of each day.~~
- ~~Students will be socially/physically distanced as possible—family members may sit multiple to a seat, otherwise students will sit appropriately spaced within the bus to adhere to the 3 feet to 6 feet distancing guidance from the American Academy of Pediatrics.~~

## PARENT RESOURCES:

~~As we continue to face the unprecedented global pandemic,~~ parents may be challenged to find the best way to discuss COVID-19 with a child. Finding ways to ease anxiety and uncertainty that comes with this atypical moment in time, while demanding, is important.

Given these challenges, the Brookings School District wanted to share some resources that may be helpful for parents and caregivers as you talk with your child about COVID- 19.

### How to talk to your children about Coronavirus

- [Talking with children about Coronavirus Disease 2019](#)
- [Talking to Children About Coronavirus \(COVID19\)](#)
- [Helping Children and Teens Cope with Anxiety About COVID-19](#)

Formatted: Font color: Blue

### Other Articles and Resources

- [Parenting in the Time of Coronavirus](#)

Formatted: Font color: Blue

## PARENT/FAMILY EXPECTATIONS:

As we exercise the plan, ~~to open schools for the fall of 2020,~~ we are asking parents for support and help. ~~Please begin by visiting with your child(ren) about the various plans from face to face to remote/distance to hybrid instruction.~~ It is important that children are supported ~~in each of the delivery models~~ by encouraging students as learners to attend and actively engage all classes and finish all assignments. Failing to actively engage and participate in classroom activities and coursework, regardless of the delivery model, may constitute absences from school, truancy, and related consequences.

If your child is engaged in either the remote/distance or hybrid models, here are some added strategies and supports to assist learners:

- ✓ Create a comfortable, distraction-free place for your children to work and attend online classes.
- ✓ Do not join your children's online classes or be visible on your children's screens during classes. This is the learning time for your child. You are encouraged to take an active role in the learning process, while still allowing your child to experience the learning.
- ✓ Encourage your children to incorporate physical activity and healthy breaks from classes during the day, while practicing responsible social distancing.
- ✓ Calmly establish routines and expectations for your child.
- ✓ Partner with your child's teachers and reach out should any challenges arise.
- ✓ Help your child to plan and turn in their work and keep them focused and on task.
- ✓ Abide by our district policies and procedures regarding the use of the school-provided device(s).

## TRANSPORTATION CONSIDERATIONS AND OPTIONS

Phase 1 - Bussing ~~services will be provided as usual, try and while distancing spread riders/students out the best we can to the extent possible.~~ Hand sanitizer ~~will be available~~ at the front of the buses. Masks will be available ~~while supplies last if needed. Activities as normal. Drivers will clean high traffic areas on buses.~~

Phase 2 – Bussing options may be limited. Parents may be asked to provide transportation services. Riders ~~to~~ will be distanced ~~when and~~ if possible. Masks will be required and available if needed. Parents will be ~~encouraged~~ required to take the temperature of their bus-riding students prior to boarding the bus. If the temperature is at or above 100-4, the student will not be allowed on the bus. Drivers will clean high traffic areas.

Phase 3 – Bussing options may be limited. Parents may be asked to provide transportation services. Riders to be distanced when ~~and if~~ possible. Masks will be required and available if needed. Parents will be ~~required~~ encouraged to take the temperature of their bus-riding students prior to boarding the bus. If the temperature is at or above 100-4, the student will not be allowed on the bus. Drivers will clean high traffic areas.

Phase 4 - ~~No school/No bussing/clean buses~~ No face-to-face learning, therefore, no bussing is necessary.

## EXTRA & CO-CURRICULAR ACTIVITIES CONSIDERATIONS & OPTIONS

### Guiding Principles & Phased Approach

Phase	Phase I – Risk Low	Phase II – Risk Moderate	Phase III – Risk High	Phase IV – Risk Severe
<b>Infection Risk Level</b>	<p>No to minimal community transmission.</p> <p>Reinforce everyday preventative actions, ensuring proper ventilation within school facilities, including buses and maintaining cleaning and disinfection practices remain important. Monitor absenteeism among teachers, staff, and students to identify trends and determine if absences are due to COVID-19, symptoms that led to quarantine, concerns about being in the school environment and personal health and safety, or positive test results. Anyone who tests positive for COVID-19 should stay home and self-isolate for the timeframe recommended by public health officials. <del>Anyone who has had close contact with someone who has tested positive or is symptomatic for COVID-19 should be tested and stay home until receiving a negative result, or stay home and monitor for symptoms.</del></p>	<p>Minimal to moderate community transmission.</p> <p>Continue following strategies from phase I along with implementing mitigation strategies such as social distancing, use of <del>face masks- cloth faced coverings</del>, reinforcing everyday preventative actions, and maintaining cleaning and disinfection. This also can include ensuring that student and staff groupings/cohorts are as static as possible, <del>and that mixing groups of students and staff is limited.</del> Scheduled visitors are allowed.</p>	<p>Substantial, controlled transmission.</p> <p>Mitigation strategies are necessary. These include following all the actions listed above and also ensuring that student and staff groupings/cohorts are as static as possible with limited mixing of student and staff groups, field trips and large gatherings and events are canceled, <del>and communal spaces (e.g., cafeterias, media centers) are closed.</del> No visitors allowed.</p>	<p>Substantial, uncontrolled transmission.</p> <p>The Brookings School District will work closely with local health officials to make decisions on whether to maintain school operations. The health, safety, and wellbeing of our students, teachers, staff and families are the most important consideration in determining whether school closure is a necessary step. <del>Communities can support schools staying open by implementing strategies that decrease a community's level of transmission.</del> However, if community transmission cannot be <del>controlled decreased</del>, school closure is an important consideration. Plans for virtual/remote learning will be in place in the event of a school closure.</p>
<b>CDC Information</b>	<del>No confirmed active cases; Monitor activities within the</del>	<del>Cases confirmed; Consideration of limited student and staff</del>	<del>Case numbers growing; Consider limited student and</del>	<del>Cases spreading rapidly; Strict stay at home and social</del>
