HANDBOOK LISTING (Alphabetical Order)

-A-

ACADEMIC HONESTY

The following actions are reflective of academic dishonesty and are subject to disciplinary action by teacher, school, and/or district. Some offenses may be criminal in nature and therefore prosecutable under local, state, or federal laws.

Using dishonest, deceptive or fraudulent means to obtain or attempt to obtain credit for academic work; using notes, aids, or another student's assistance to complete a test, a project or other assignment in a way other than that expressly permitted by the teacher. Unless otherwise directed by the teacher, students should accomplish all assignments individually; Looking at another student's test, answer sheet, or other materials; Copying from or allowing another student to copy from a test, homework, or other course work- which is not intended to be collaborative in nature; accessing, deleting, modifying, transferring, or receiving of computerized files without authorization of the teacher. Although a student may authorize another student to copy or transfer electronic files, this action is considered cheating if effected without teacher permission; and plagiarizing materials; that are taking the specific or general substance of another person's work and offering it as one's own work without giving credit to the original author. Plagiarizing encompasses omitting quotation marks for directly quoted material, omitting bibliographic references either in the text or on a source page appended at the end of the assignment, and/or paraphrasing an author without giving credit to that author for use of his or her ideas. Paraphrasing is the student's use of an author's idea by rewording and/or rearranging that author's original text.

All students have due process rights. **See Policy JFA.**

ACCEPTABLE USE of COMPUTERS AND NETWORKS **Policy IIBG**

Access to the internet is available to students and teachers of the school district. Online resources will allow classroom projects such as pen-pal discussions, scientific data collection, and international cultural exchanges. The internet enables worldwide connection to electronic mail, discussion groups, databases, computer software and informational sources such as libraries and museums. The goal of the district through online resources is to promote educational excellence by facilitating resource sharing, innovation and communication within our own community, our nation and worldwide. With the access of

online resources comes the availability of material that may not be considered to be of educational value in the context of the school setting. On a global network, it is impossible to control all materials and an industrious user may discover controversial information. However, it is the district's belief that the valuable information and interaction on these networks far outweigh the possibility that a user may locate material that is not consistent with the educational goals of the district. Internet users, like traditional library users, are responsible for their actions in accessing online resources. Before faculty, staff, students or parents have access to the Internet, they must complete a mandatory workshop. The intention of the workshop is to educate users on proper Internet conduct. The administration will formulate the necessary regulations to carry out the policy of acceptable Internet use and the consequences if violations occur.

ACCEPTABLE USE FOR NETWORK ACCESS

Policy IIBG-R

The information systems and Internet access available through the Brookings School District are available to support learning, enhance instruction and support school system business practices.

The Internet is a global information and communication network that provides a tremendous opportunity to bring information opportunities to our students. Through the Internet, students can access up-to-date, highly relevant information that will enhance their learning. Students also have the opportunity to communicate with other people from throughout the world. Use of the Internet for enriching educational activities will assist in preparing students for success in life and work in the 21st Century.

The district offers access to technology resources for schoolwork and enrichment activities. The purpose of the technology resources is to provide additional educational support and communication tools. These resources help to facilitate education and research consistent with the objectives of the Brookings School District.

ACTIVITIES

Activity cards will be provided in addition to a student identification card.

Activity Cards may be purchased on the day of registration for:

High School Students: \$35.00

MMS Students: \$25.00

Elementary and Camelot: \$20.00

Adult Activity Passes: \$80.00 for single - \$140 for couple

Senior Citizen Passes: \$50.00 each

There is a maximum of \$80.00 for students per family.

ACTIVITIES PARTICIPATION

In the case of illness, a student must attend at least one (1) block period immediately preceding departure for a home or away activity (or transportation to an activity).

A student, who has committed illegal offenses on the Progressive Discipline Chart and is involved in co-or extra-curricular activities, shall also be subject to the consequences as specified in policy JJC in this handbook and JJC-R relating to student conduct-student activities.

APPLYING THE RULES OF BHS

Policy JFC

1. The consequences for misbehavior described in the Progressive Discipline Chart in this Handbook are for misbehavior resulting in referral to the principal's office. Consequences are designed to be fair, firm, and consistent for all students at Brookings High School. They apply to all students in any school or other district building, on district property, in district vehicles or school-sponsored transportation, and at district events. They also apply to violations of district policies even when the student is not at a district event or on school property. Consequences listed are minimums. A building administrator has the latitude to modify penalties. Based on the nature and severity of the offense, the administrator will have the authority to enforce other reasonable disciplinary action found warranted by the situation.
2. **Because it is not possible to list each misbehavior that may occur, the administration and staff reserve the right to respond to misbehavior not included in the Progressive Discipline Chart. The content of the chart is based on the assumption that misbehaviors are dealt with by administrators, classroom teachers, counselors, bus drives, chaperones, and other appropriate staff.**
3. Progressive discipline will be used in conjunction with existing district policy.
4. Actions which may be used by district staff to discipline students and/or encourage them to modify their behavior include but are not limited to: student conference, parent or guardian notification, fine, restitution, removal from class, dismissal from school, In-School Suspension (ISS), Out-of-School Suspension (OSS), detention/block detention/Saturday detention, exclusion, referral to law enforcement authorities, conflict resolution training and recommendation to alternative community service.

Seniors must enroll in at least six classes during the school week unless they have been approved as a part time student (school district policy JF) or a partial schedule has been approved by administration due to extenuating circumstances. Concurrent or Dual Credit classes are considered part of the period school week.

Absences will be classified as excused or unexcused.

Excused Absences include but are not limited to: funeral, family emergency, court, illness, surgery, religious holidays, hazardous weather, parent request, school-sponsored and school-recognized activities, college visits

Due to **SDCL 13-27-1** (Compulsory School Attendance), caregivers are required by law to send their child (ren) (six years – eighteen years old) to school on a regular basis. After 10 unexcused absences, the Brookings School District will submit a truancy report to law enforcement indicating missed classes/days of school for students displaying “irregular attendance” 13-27-20. Law enforcement will submit all truancy requests to the Deputy State’s Attorney’s office. **SEE TRUANCY**

1. **Attendance:** All students will be allowed **10 unexcused absences** per semester.

After **7 unexcused absences** in one or more classes per semester, school personnel will send a letter to parent or guardian.

After **10 unexcused absences** in one or more classes per semester, students are considered excessively absent and a letter will be sent to parent/guardian. Henceforth, the student will only be excused in the case of serious illness (doctor’s verification necessary within 2 days of absence) or other extenuating circumstances. If the student is failing a class, he/she may be removed and will no longer receive credit for the class.

**Student/parent may appeal the decision of the school administration to drop the student from class(es) by making a request to the principal or assistant principal.

CAREER AND TECHNICAL EDUCATION (CTE) ACADEMY

CTE courses provide relevant, hands-on opportunities that relate to technical careers and the workplace. Teachers of these courses as well as the courses themselves must go through a process of state certification in order to be a state-approved program.

CHEATING

Copying vs. Collaboration

At times students will work together on assignments. Understanding the distinction between copying another's work and collaborating on an assignment is important. BHS teachers are responsible for informing their respective students as to the appropriate protocol regarding collaboration. Disclaimer: If a teacher does not clearly state that an

assignment is collaborative, all work that the student completes should be independently created and not obtained from any other source including, but not limited to classmates.

Cheating

- Copying any portion of another student's homework with or without his/her permission
- Viewing and/or copying answers from another student's test or quiz
- Being responsible for, or partaking in, the transference of confidential information. (i.e., test answers or test/quiz copies)
- Utilizing written or electronically stored information that is pertinent to a test, quiz or class activity, without consent from a teacher
- Allowing one's work to be copied by another student
- Having someone else do an assignment that was meant to be done alone

Plagiarism

When a student submits work for credit that includes the product, words, ideas, or data of others, the source must be acknowledged by the use of complete, accurate, and specific references. By placing one's name on work submitted for credit, the student certifies the originality of all work not otherwise identified by appropriate acknowledgements. On written assignments, if verbatim statements are included, the statements must be enclosed by quotation marks or set off from regular text as indented extracts. A student will avoid being charged with plagiarism if there is an acknowledgement of sources of information whenever one:

- Quotes another person's actual words, or replicates all or part of another's product.
- Cutting and pasting another person's actual words.
- Uses another person's ideas, opinions, work, data, or theories, even if they are completely paraphrased in one's own words.
- Borrows facts, statistics, or other illustrative materials - unless the information is common knowledge.

CONDUCT EXPECTATIONS

Policy JFC

Every student at Brookings High School shall be expected to obey all school rules and regulations as well as the laws of the community, state and nation. Student behavior will reflect favorably on the individual and on the school, will show consideration for others, and will create a harmonious learning atmosphere. Students must recognize their individual responsibilities and obligations and discharge them in accordance with school regulations. When administering these policies, the emphasis shall be toward student growth in self-discipline.

When a school employee acts to assist a student in proper conduct, the emphasis shall be toward student growth in self-discipline. The building administrators shall inform the parents or guardians of any student whose behavior is in serious conflict with established rules, laws and procedures; though, we will work with students to correct more minor behaviors without parental involvement.

This handbook applies to all students whenever and wherever the student is under the jurisdiction of the school, including all school-sponsored activities and functions at home or away. (See the Brookings High School Progressive Discipline Chart at the end of the Handbook).

Under no circumstances will vandalism, violence, destructive acts, intimidation, extortion, harassment, malicious disturbances, and other violations of the law be tolerated, condoned or excused. DRESS CODE

It is expected that decisions made by parents and students regarding school dress and grooming will reflect favorably upon the individual, the school, and the community. Restrictions on a student's dress and grooming are necessary when they create danger to health/safety, interfere with the educational process, are a distraction, and/or disrupt school

or school activities. Note: If students have questions, please check with administration ahead of time.

Students and parents should base decisions on the following limitations:

1. Clothing: Neatness and cleanliness to meet general, local standards of health, safety, and decency.
2. Hair: neat, clean and tied back, if required, for safety/health standards (such as: CTE and science labs)
3. Hats, hoods, sunglasses, etc. are not to be worn in the building. Caps, hats, and sunglasses: need to be removed upon entering the school building and placed in lockers during the school day. Hoods must be lowered. Bandanas may not be used as a hat.

Note: If students have questions they it is recommended they check with administration ahead of time. BHS Staff reserves the right to determine if a student's dress does not meet the dress code.

DRESS CODE-UNIFORMS

Because some BHS courses and activity programs traditionally require uniforms of various types, as well as uniform appearance of the students participating, the teachers/activity directors may require definite standards of dress and appearance on the day of the class or activity. These standards may be different from the dress code detailed below. Additionally, during certain student activities such as dances and athletic contests, the dress code may be adjusted by administrative decision.

DUE PROCESS

Policy JFA

Discipline in the schools is critical to the provision and implementation of public education. The Board and school administrators have the legal authority to deal with disruptive students and student misconduct. The United States Constitution and The South Dakota Constitution entitle all students to due process when they are subjected to deprivation of a property right. The Board recognizes the importance of safeguarding a student's constitutional rights.

Due process is an established course for judicial proceedings or other governmental activities designed to safeguard the legal right of the individual.

A student whose conduct may warrant suspension or expulsion shall be provided with appropriate due process. Due process, in the context of the administrative proceedings carried out by school authorities, refers to the notification and hearing procedures established by the South Dakota Board of Education

Due process procedures shall be fair and apply equally to all. Fairly enforcing due process procedures involves:

- Adequate and timely notice and an opportunity to prepare a defense;
- An opportunity to be heard at a reasonable time and in a meaningful manner and;
- The right to a speedy and impartial hearing on the merits of the case.

SPECIAL EDUCATION STUDENTS

Students who attend public school on an individualized educational program (IEP) are subject to due process procedures established by the South Dakota Board of Education under administrative rules for special education. The administration shall consult with a student's individualized education program (IEP) team to balance student disciplinary actions with the provision of a free and appropriate public education for students with disabilities.

EARLY GRADUATION

POLICY IKFA

The Board of Education recognizes the advantages of maturity, a broad academic base, socialization (association with peers), and access to co-curricular activities as beneficial to the great majority of students. Therefore, the District does not encourage attempts to complete a course of study for graduation in less than four (4) full academic years. However, the Board will accept modification of the four-year attendance requirements for high school graduation provided the student has satisfactorily completed the credits for graduation as set forth by the State Board of Education and the Brookings School District 5-1.

Students are required to earn twenty-two (22) credits throughout grades 9-12 to graduate from Brookings High School. It is possible to complete the 22 credits by the end of the junior year.

EMAIL FOR STUDENTS

Students will be assigned logins and passwords to access email accounts hosted by the State Department of Education and administered by BHS technology personnel. Students will be able to access this email account from school computers as well as from any Internet-equipped computer off campus. Students must follow the Acceptable Use Policy for Student Network Access (in this Handbook).

EQUAL EDUCATION OPPORTUNITY NOTICE

The policy of the Brookings School District No. 5-1 is that discrimination against any individual for reason of race, color, creed, religion, national origin, sex, age, marital status, or handicap is specifically prohibited by the Board of Education. Inquiries concerning sex discrimination may be made directly to Brookings School District Superintendent, at 2130 8th Street South, Brookings, SD 57006. RELEASE OF PERSONALLY IDENTIFIABLE INFORMATION (FERPA)

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. These rights are:

1. The right to inspect and review the student's education records within 45 days of the day the School receives a request for access. Parents or eligible students should submit to the School principal [or appropriate school official] a written request that identifies the record(s) they wish to inspect. The School official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate or misleading. Parents or eligible students may ask the School to amend a record that they believe is inaccurate or misleading. They should write the school principal [or appropriate official], clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the Brookings School District decides not to amend the record as requested by the parent or eligible student, the district will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the School as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the School has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another

school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the Brookings School District discloses education records without consent to officials of another school district in which a student seeks or intends to enroll.

[NOTE: FERPA requires a school district to make a reasonable attempt to notify the parent or eligible student of the records request unless it states in its annual notification that it intends to forward records on request.]

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the School to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202

Under FERPA, the Brookings School District may disclose directory information without consent, unless the parent or eligible student has requested the school district not disclose directory information about them. The parent or eligible student has ten calendar days from the date of the annual publication of FERPA to submit a written request to the school regarding the non-disclosure of directory information.

"Directory information" means information contained in an education record of a student that would not generally be considered harmful or an invasion of privacy if disclosed. It includes, but is not limited to, the student's name, address, telephone listing, electronic mail address, photograph, date and place of birth, major field of study, dates of attendance, grade level, enrollment status (e.g., undergraduate or graduate; full-time or part-time), participation in officially recognized activities and sports, weight and height of members of athletic teams, degrees, honors and awards received, and the most recent educational agency or institution attended.

FERPA requires that school districts use a reasonable method to identify and authenticate the identity of parents, students, school officials and any other parties to whom they disclose personally identifiable information from education records. The Brookings School District method for verification of identity will include requiring photo identification for any individual who is not a current member of the district staff who seeks educational records in person. Requests for records in writing will be made on the letterhead of the school or agency making the request.

Students involved in fighting on school property before or after school, during the noon hour, or while school is in session will be suspended from school. Violators will receive consequences per BHS Progressive Discipline Chart.

PART-TIME ENROLLMENT

Policy JF-E

The Board of Education recognizes the advantages of maturity, a broad academic base, socialization (association with peers), and access to co-curricular activities as beneficial to the great majority of students. Therefore, the District does not encourage attempts to complete a course of study for graduation in less than four full academic years, however, the Board will accept modification of the four-year attendance requirements for high school graduation provided the student has satisfactorily completed the credits for graduation as set forth by the State Board of Education and the Brookings School District 5-1.

A student who desires to attend Brookings High School as a part-time student must indicate intentions to the counselor by the end of the 3rd quarter during the school year prior to the school year in which the student is requesting part-time status for any semester(s).

Students are required to earn twenty two credits throughout grades 9-12 to graduate from high school. It is possible to attend Brookings High School as a part-time student, provided that the student meets the procedures and conditions as specified in Policy JF-E.

The district truancy officer will be responsible for enforcing the compulsory attendance laws which require regular attendance, provide for penalties if parents and guardians do not carry out their responsibilities, and establish procedures for referral of a truant student to juvenile authorities. The district truancy officer shall make and file truancy complaints, and any teacher, school officer or any citizen may make and file a truancy complaint before the circuit court judge.

1. BHS definition of Truancy: Unapproved absence from class within the school day. Any time students are not where they are supposed to be, they may be considered truant by BHS definition and will receive consequences. *For example: a student is given a pass to the restroom and the student goes to the library, senior hall, another class, etc. This student is truant by BHS definition.*
2. Legal definition of Truancy: relates to compulsory attendance law, SDCL 13-27. Every person having control of a child, who is six years old by the first day of September and who has not exceeded the age of eighteen, shall cause the child to regularly and annually attend some public or non-public school for the entire term during which the public school in the district in which the person resides, or the school to which the child is assigned to attend, is in session, until the child reaches the age of eighteen years, unless the child has graduated or is excused as provided in this chapter.

WELLNESS POLICY

Policy AE/AE-R

School District Wellness Policy Information

Local wellness policies are an important tool for parents, the local school district, and the overall community in promoting student wellness, preventing and reducing childhood obesity, and providing assurance that school nutrition guidelines meet the minimum federal school meal standards.

Background

Congress recognizes that schools play a critical role in promoting student health, preventing childhood obesity, and combating problems associated with poor nutrition and physical inactivity. In 2004, Congress passed the Child Nutrition and Special Supplemental Nutrition Program for Women, Infants and Children (WIC) Reauthorization Act (Sec. 204 of [Public Law 108-265](#)). This act required, by law, the Brookings School District to create a local school wellness policy. In 2010, Congress passed the [Healthy, Hunger-Free Kids Act of 2010](#) that included provisions for local school wellness policies related to implementation, evaluation, and publicly reporting on progress of local school wellness policies. On July 21, 2016, the final rules for local school districts were published. The final rule strengthens the requirements on public involvement, transparency, implementation, and evaluation among other topics.

Overview of Requirements

The final rules require the Brookings School District to develop a revised local school wellness policy during the 2016-2017 school year. The rules required the local school district to fully comply with the requirements of the final rule by June 30, 2017. This includes, but is not limited to:

- Permitting parents, students, representatives of the school food authority, teachers of physical education, school health professionals, the school board,

school administrators, and the general public to participate in the development, implementation, review, and update of the local wellness policy. The Brookings School District committee included representatives from each of the stakeholder groups mentioned.

- Identifying wellness policy leadership of one or more local school district and/or school official(s) who have the authority and responsibility to ensure each school complies with the policy. Principals and child/nutrition staff have been designated as the responsible parties for policy compliance.
- Informing and updating the public (including parents, students, and others in the community) about the content and implementation of the local wellness policy. The Brookings School Board held public hearings as well as several readings of the policy at the regularly scheduled school board meetings to allow for public input and comment.

Ensuring the wellness policy includes all of the required components:

- Specific goals for nutrition promotion and education, physical activity, and other school-based activities that promote student wellness. LEAs are required to review and consider evidence-based strategies in determining these goals.
- Nutrition guidelines for all foods and beverages available or for sale on the school campus during the school day that are consistent with Federal regulations for:
 - School meal nutrition standards, and
 - Smart Snacks in School nutrition standards.
- Policies for other foods and beverages available on the school campus during the school day (e.g., in classroom parties, classroom snacks brought by parents, or other foods given as incentives).
- Policies for food and beverage marketing that allow marketing and advertising of only those foods and beverages that meet the Smart Snacks in School nutrition standards.
- Description of public involvement, public updates, policy leadership, and evaluation plan.

Four key components create the framework for the policy. These components and details are as follows:

Nutrition Education and Nutrition Promotion

Nutrition education will be offered at each grade level as part of a sequential, comprehensive, standards based program designed to provide students with the knowledge and skills necessary to enhance their health. Nutrition education will be incorporated into the school day as often as possible. The primary goal of nutrition education is to positively influence students' eating behaviors and food choices. Nutrition promotion and education will be offered to parents, staff, and community.

Physical Activity, Education, and Promotion

Physical education will be offered at the elementary, middle, and high school levels as part of a sequential, comprehensive, standards-based program designed to provide students with the knowledge and skills needed for lifelong participation in a broad range of activities. Students will learn the short and long-term benefits of an active and healthy lifestyle to maintain fitness through regular participation in physical activity.

Other School-Based Activities

Schools will create an environment that provides and demonstrates consistent wellness messages, is conducive to healthy eating and physical activity, and contributes to forming healthy life long habits for students, staff, and community.

Nutrition Standards

Students' life-long eating habits are greatly influenced by the types of foods and beverages available to them. Foods of good nutritional content including fruits, vegetables, low-fat dairy, lean meat, whole grain rich products, and water will be available wherever and whenever food is sold or otherwise offered at school. For additional clarification, please contact the school principal. As the Brookings School District implements the policy according to the federal requirements, you will notice several changes in the practices related to food in the schools and classrooms.

These changes can be found in the enclosed wellness policy regulations. Items of interest include, but are not limited to:

- Schools will permit use of only healthy options of food as an incentive and for celebrations. Other more appropriate rewards will be encouraged (e.g. extra free time, physical activity opportunity, pencils, bookmarks, etc.).
- Extended periods of inactivity (two hours or more) are discouraged. When activities, such as mandatory school-wide testing, make it necessary for students to remain indoors for long periods of time, students will be given periodic breaks during which they are encouraged to stand and be moderately active.
- Schools discourage and will limit celebrations that involve food during the school day. Healthy celebrations promote positive choices and healthy behaviors.
- Schools will promote drinking water as an essential component of student wellness by providing access to free, safe drinking water in varied locations and will encourage student consumption of water throughout the school day. Students will be allowed to drink water from personal water bottles in class.
