District Vision:

~ The Brookings School District will be an exemplary, innovative learning community recognized and aligned for excellence whose graduates are prepared to excel in an ever-changing and inter-connected world.

District Mission:

~ The Brookings School District prepares all learners to be confident engaged citizens empowered to impact the ever-changing and inter-connected world.

District Core Values:

- LEARNERS FOR LIFE
- SAFE AND SECURE ENVIRONMENT
- LEARNER CENTERED APPROACH THROUGHOUT THE DISTRICT
- LEARNER, PARENTS, STAFF, AND COMMUNITY AS PARTNERS
- INTEGRITY AND TRANSPARENCY THROUGHOUT THE ORGANIZATION

These core values serve as the premise for the Brookings School District operational and organizational processes. The core values will serve to guide learners, staff, administration, and board of education decisions and actions. These core values provide an essential foundation for the development of the district's plan.

District Assurance of Regular Review:

The South Dakota Department of Education will collect assurances from Superintendents that Safe Return Plans have been reviewed at these points during the school year:

- December 2021 (in conjunction with December Child Count)
- June 2022 (in conjunction with Year-End Sign-Off)
- December 2022 (in conjunction with December Child Count)
- June 2023 (in conjunction with Year-End Sign-Off)

Guiding Principles:

The COVID-19 global pandemic has significantly impacted our communities and the various functions of our communities. Nearly everyone was forced to reconsider how services were delivered. School districts were no different. Amidst the school shutdown in the spring of 2020 and the return to learn for the 2020-2021 school year, school districts discovered practices that proved to be more effective than others. In the Brookings School District, our community of educators and learners discovered the value of face to face instruction. The relationships forged in the classroom contribute to the social and emotional wellbeing of all – both children and adults. Further, we discovered the value of relevance in the teaching and learning processes. In addition, we also noted the powerful impact of learner voice, choice, and pacing in the educational process on learner outcomes and learner success.

As a result of these discoveries, the Brookings School District plan embraces these discoveries. Our district leaders have realized the need to embrace practices to support the social and emotional needs of our learners. Furthermore, district leaders recognize the powerful impact of practices embracing learner voice and choice. The value of creative problem solving through application and creation were also noted as value-added instructional practices. Therefore, as the Brookings School District leadership developed the plan for classroom instruction for the 2021-2022 school year, the realization was quite clear – the Brookings School District must strategically invest in and support further staff development and community awareness around the areas of project and problem based learning along with further investments in support and development of practices embracing learner voice and choice through personalized and customized learning.

As the school year progresses, WHAT happens in the school is equally important. Watch for increased efforts supporting personalized and customized learning along with ongoing efforts to support problem and project based learning all grounded in the fundamental importance of community and meeting the social and emotional needs of learners.

Several perspectives have influenced the Brookings School District plan. The District leadership considered recommendations from organizations such as the South Dakota Department of Health, the South Dakota Department of Education, the Center for Disease Control, the American Academy of Pediatrics, as well as input from local health care officials, the City of Brookings, staff, community members, school board members, and parents.

- Our plan attempts to reasonably implement guidance from:
 - Center for Disease Control
 - American Academy of Pediatrics
 - United States Department of Education
 - South Dakota Department of Education
 - Federal and State elected officials
 - South Dakota Department of Health
 - Local Health Systems
 - Local stakeholders

- Our goal is to have learners physically present for learning in the school facilities as much as possible. The district will apply standards of expectation and behavior accordingly. Measures and steps to be taken dependent upon our phase may include:
 - **NECESSARY PHYSICAL DISTANCING**
 - **INCREASED CLEANING AND DISINFECTING**
 - **SCREENING**
 - Any individual with a temperature of 100 degrees Fahrenheit or higher without medication should not be present in school.
 - Anyone demonstrating a temperature of 100 degrees Fahrenheit or higher will be sent home immediately.
 - If a learner or staff member has a known exposure to COVID-19, the individual is directed to quarantine per current SD Department of Health guidelines.
 - Anyone with a positive COVID-19 test must isolate, according to the [SD Department of Health guidelines](#).
 - **TESTING OPTIONS**
 - Contact your health care provider.
 - The DOH is offering COVID-19 take home tests. Tests will be available for at home use for symptomatic learners and staff members. A limited number of those tests will be available. Please speak with your building nurse for more information.
 - **VACCINE RESOURCES**

The Brookings School District will **NOT** require learners or staff to receive the COVID-19 vaccination. This is a personal choice you should discuss with your health care provider.

 - Vaccines are available at the following locations in Brookings:
 - Brookings Health System: (605) 696-9000
 - Sanford Health: (605) 697-1900
 - Avera Health: (605) 697-9500
 - Hy-Vee Pharmacy: (605) 692-7311
 - Lewis Drug: (605) 692-6688
 - Walmart Pharmacy: (605) 692-1858
 - **FACE COVERING/MASKS**
 - Face masks will be deemed optional. Click [HERE](#) for more information on how to properly wear a face covering/mask.
 - **PROPER HYGIENE MEASURES**

- Teach and reinforce proper hygiene measures such as [hand washing](#) and [respiratory etiquette](#)
- Staff and learners will wash hands and/or use sanitizer regularly
- **VISITORS**
 - Visitors may enter the building and are encouraged to have a scheduled appointment and are required to follow district requirements. Virtual platforms may be utilized when and as needed.
- **FACILITY USE AGREEMENT**
 - School district facilities will be available to outside clubs or organizations until Phase IV of the Bobcat Tracks Plan.
- **COMMUNICATION SYSTEMS**
 - Updates will be posted on the COVID-19 Resource page on the Brookings School District website. In order to maintain the safest and secure learning environment, the Brookings School District asks parents/guardians to communicate promptly with their child's school in the event of a positive diagnosis or absence related to COVID-19.

General Expectations:

The goal of the Brookings School District is to provide direct face-to-face educational services for the learners. Learner success is grounded in strong relationships, learning that is relevant, and expectations that are realistic, yet rigorous.

The Brookings School District will adhere to the following expectations for learners, teachers, and families regardless of the learning model provided in the situation the district may find itself as the COVID-19 implications continue:

- For learners unable to attend school due to COVID-19 related health limitations the district will maintain every effort to provide educational programming.
- Class periods/times will begin on time and current policies around turning in work will be maintained.
- From time to time, some classes may apply videos/instructions via a video source that will need to be completed by learners prior to class.
- From time to time, classes may be recorded to allow ongoing and future access by learners and families.
- Learners are expected to give their best effort, exhibit their best class behavior regardless of the location and model and attend classes regularly, health permitting.
- Learners assessments of academic progress will include both formative as well as summative assessments to gauge and adapt instructional practices to learner needs.

- Brookings School District staff will apply the principles of the professional learning community models in the educational approach to learners by focusing on four key questions: 1) What do we want learners to know and be able to do? 2) How will we know when they have learned it? 3) What will we do when learners have not learned it? 4) What will we do to extend the learning when the learner already know the content? This four question approach allows the district to focus on the specific, high priority academic standards and needs of the learner.
- The Brookings School District recognizes the impacts of COVID on the wellbeing of learners and staff. The district will provide an employee support program within the district for staff mental and emotional wellbeing. Additionally, the district will employ a district wide social worker who will work closely with school based counseling services to support the emotional and social needs of the learners.

Our world has changed! We have observed how much and to what extent as offices moved from the corner to the kitchen table and shopping moved from carts to clicks. We have observed and experienced the value of relevance, the importance of rigor, and the significance of relationships during the Covid-19 shutdown. In a 21st Century knowledge based economy, the learner needs have shifted from the agrarian and industrial models to a model of individual responsibility, social justice, equity, educational continuity, adaptability, and production. The currency of time has been replaced by the currency of production. Our educational systems must not just recognize, but embrace these changes to remain relevant both today, as well as tomorrow and well into the future! Our society and American way of life is grounded in the work of the public education system. Our plan represents efforts to honor our past, embrace the future, all the while being mindful of the importance and value of a quality public educational experience in the Brookings School District.

If you have any questions, please do not hesitate to contact your child's school or the administration office at (605) 696-4700. If you need assistance with translating this document into another language or by means of other translation services, please contact Amanda Kesteloot at (605) 696-4717 or by email at Amanda.Kesteloot@k12.sd.us

OPERATIONAL OPTIONS DEFINED:

The Brookings School District has adopted face-to-face learning as the primary delivery model. However, should circumstances warrant, the Brookings School District is prepared to implement a remote learning model.

FACE-TO-FACE LEARNING MODEL:

Face-to-face instruction provides a return to school campuses and classrooms where learners will interact directly with their teachers and their peers. The school day will follow the adopted school day schedule and include core classes as well as other subject areas including encore classes and co-curricular courses. This learning model represents the typical school environment. Overall, the goal of the face-to-face learning model is to create an environment that provides opportunities for learners to engage in a school experience, where learners still interact directly with their teachers and classmates while still embracing practices and safeguards that protect the health and well-being of both learners and staff members.

REMOTE/DISTANCE LEARNING MODEL:

The remote/distance learning model is contingent upon ongoing developments of COVID-19 in the Brookings School District. In consultation with state and local agencies the school district will be prepared to fully implement remote/distance learning.

In the remote/distance learning model, learners will attend school remotely. The model will incorporate regular real-time and in-person interactions with teachers. The model would provide teacher-guided and facilitated learner learning to allow for flexibility in educational experiences. The model reflects the ongoing developments within the Brookings School District to customize and personalize the learning experiences of learners. In the remote/distance learning model, learners may work on assignments within an established daily schedule and will be required to interact with teachers and peers using web-based communications and class session tools. Ultimately, the model reflects the efforts of the Brookings School District to provide a high-quality and effective educational experience.

PHASED APPROACH AND DISTRICT DECISION MAKING:

The Brookings School District will consider different phases of impact and apply a decision making tree regarding operational plans for the district functions in a pandemic environment.

CHANGE IN SAFETY LEVELS

Due to the rapidly changing nature of the COVID-19 pandemic, COVID-19 protocols are continuously reviewed by the district administrative team. The school district works closely with the SD Department of Health (SDDOH) and local public health agencies to monitor COVID-19 in Brookings County and surrounding areas.

The Brookings School District is actively monitoring COVID-19 indicators to determine safety level movement.

THE BROOKINGS SCHOOL DISTRICT FOUR PHASE APPROACH

Phase	Phase I	Phase II	Phase III	Phase IV
<p>Three factors considered:</p> <ul style="list-style-type: none"> - COVID-19 spread in the community. - Impact and spread of COVID-19 in the schools. - Impact of COVID-19 on the health care systems in Brookings. 	<p>Reinforce everyday preventative actions, ensuring proper ventilation within school facilities, including buses and maintaining cleaning and disinfection practices remain important. Monitor absenteeism among teachers, staff, and learners to identify trends and determine if absences are due to COVID-19, symptoms that led to quarantine, concerns about being in the school environment and personal health and safety, or positive test results. Anyone who tests positive for COVID-19 should stay home and self-isolate for the timeframe recommended by public health officials.</p> <p>Face masks are optional.</p>	<p>Reinforce everyday preventative actions, ensuring proper ventilation within school facilities, including buses and maintaining cleaning and disinfection practices remain important. Monitor absenteeism among teachers, staff, and learners to identify trends and determine if absences are due to COVID-19, symptoms that led to quarantine, concerns about being in the school environment and personal health and safety, or positive test results. Anyone who tests positive for COVID-19 should stay home and self-isolate for the timeframe recommended by public health officials.</p> <p>Face masks are strongly recommended.</p>	<p>Continue following strategies from phase II along with implementing mitigation strategies such as social distancing, use of face masks, reinforcing everyday preventative actions, and maintaining cleaning and disinfection. This also can include ensuring that learner and staff groupings/cohorts are as static as possible.</p> <p>Face masks are required.</p>	<p>The Brookings School District will work closely with local health officials to make decisions on whether to maintain school operations. The health, safety, and wellbeing of our learners, teachers, staff and families are the most important consideration in determining whether school closure is a necessary step.. Plans for virtual/remote learning will be in place in the event of a school closure.</p>

ELEMENTARY & INTERMEDIATE (PK-5)

Phase	Phase I	Phase II	Phase III	Phase IV
<p>Three factors considered:</p> <ul style="list-style-type: none"> - COVID-19 spread in the community. - Impact and spread of COVID-19 in the schools. - Impact of COVID-19 on the health care systems in Brookings. 	<p>Reinforce everyday preventative actions, ensuring proper ventilation within school facilities, including buses and maintaining cleaning and disinfection practices remain important. HIGH SCHOOL (9-12)

BHS Guiding Principles & Phased Approach

Phase	Phase I	Phase II	Phase III	Phase IV
<p>Three factors considered:</p> <ul style="list-style-type: none"> - COVID-19 spread in the community. - Impact and spread of COVID-19 in the schools. - Impact of COVID-19 on the health care systems in Brookings. 	<p>Reinforce everyday preventative actions, ensuring proper ventilation within school facilities, including buses and maintaining cleaning and disinfection practices remain important. Monitor absenteeism among teachers, staff, and learners to identify trends and determine if absences are due to COVID-19, symptoms that led to quarantine, concerns about being in the school environment and personal health and safety, or positive test results. Anyone who tests positive for COVID-19 should stay home and self-isolate for the timeframe recommended by public health officials.</p> <p>Face masks are optional.</p>	<p>Reinforce everyday preventative actions, ensuring proper ventilation within school facilities, including buses and maintaining cleaning and disinfection practices remain important. Monitor absenteeism among teachers, staff, and learners to identify trends and determine if absences are due to COVID-19, symptoms that led to quarantine, concerns about being in the school environment and personal health and safety, or positive test results. Anyone who tests positive for COVID-19 should stay home and self-isolate for the timeframe recommended by public health officials.</p> <p>Face masks are strongly encouraged.</p>	<p>Continue following strategies from phase I along with implementing mitigation strategies such as social distancing, use of face masks, reinforcing everyday preventative actions, and maintaining cleaning and disinfection. This also can include ensuring that learners and staff groupings/cohorts are as static as possible. No visitors are allowed.</p> <p>Face masks required.</p>	<p>The Brookings School District will work closely with local health officials to make decisions on whether to maintain school operations. The health, safety, and wellbeing of our learners, teachers, staff and families are the most important consideration in determining whether school closure is a necessary step. Plans for virtual/remote learning will be in place in the event of a school closure.</p>
BHS Plan	Face-to-Face Learning Model	Face-to-Face Learning Model	Face-to-Face Learning Model	Remote/Distance Learning Model

BHS Daily Procedures

Phase	Phase I	Phase II	Phase III	Phase IV
Beginning of the day learners	<p>Doors will be open from 6:00 am - 9:00 pm for academic access.</p> <p>KEEP RIGHT: Doors will be marked ENTER and EXIT for main entrances at BHS and CTE buildings. All other doors will be locked for learner entrance.</p>	<p>Doors will be open from 6:00 am - 5:00 pm for academic access.</p> <p>KEEP RIGHT: Doors will be marked ENTER and EXIT for main entrances at BHS and CTE buildings. 	unable to attend in person by physician recommendation.	unable to attend in person by physician recommendation.	Accommodations will be made for learners who are medically unable to attend in person by physician recommendation.	
Staff Attendance	All staff will report as normal. Any questions or concerns relative to work expectations should be directed to the District Administrative Office.	All staff will report as directed. Any questions or concerns relative to work expectations should be directed to the District Administrative Office.	All staff will report as directed. Any questions or concerns relative to work expectations should be directed to the District Administrative Office.	All staff will report as directed.
Grading & Reports of Progress	Grades will be assigned to learners throughout the school year based on the regular grading scale.	Grades will be assigned to learners throughout the school year based on the regular grading scale.	Grading Scale: 90-100 = A 80-89 = B 70-79 = C 60-69 = D below = F BHS instructors will communicate through the learning management system and/or email regarding learners progress.	Grading Scale: 90-100 = A 80-89 = B 70-79 = C 60-69 = D below = F BHS instructors will communicate through the learning management system and/or email regarding learners progress.

TECHNOLOGY REQUIREMENTS AND EXPECTATIONS FOR ACCEPTABLE USE:

The Brookings School District teachers will use Canvas as the adopted district-wide learning management system (LMS) to provide instructional supports, communications, and overall connections to learners and parents. The LMS will serve as the primary tool to share assignments, communicate with learners, provide instructional supports, and guide the learning processes for learners. Whether in a face-to-face or remote/distance learning model, learners are expected to adhere to the district acceptable use policies and procedures. Further, learners are expected to be courteous and respectful and to adhere to the learner code of conduct which they agreed to when they signed the handbook at the beginning of the year. Overall, learners are expected to work collaboratively with their teacher and their peers as the district provides instruction to learners.

PARENT RESOURCES:

Parents may be challenged to find the best way to discuss COVID-19 with a child. Finding ways to ease anxiety and uncertainty that comes with this atypical moment in time, while demanding, is important.

Given these challenges, the Brookings School District wanted to share some resources that may be helpful for parents and caregivers as you talk with your child about COVID- 19.

How to talk to your children about Coronavirus

- [Talking with children about Coronavirus Disease 2019](#)
- [Talking to Children About Coronavirus \(COVID19\)](#)
- [Helping Children and Teens Cope with Anxiety About COVID-19](#)

Other Articles and Resources

- [Parenting in the Time of Coronavirus](#)

PARENT/FAMILY EXPECTATIONS:

As we exercise the plan, we are asking parents for support and help. It is important that children are supported by encouraging learners as learners to attend and actively engage all classes and finish all assignments. Failing to actively engage and participate in classroom activities and coursework, regardless of the delivery model, may constitute absences from school, truancy, and related consequences.

TRANSPORTATION CONSIDERATIONS AND OPTIONS

Phase 1 - Bussing services will be provided, while distancing riders to the extent possible. Hand sanitizer will be available at the front of the bus. Masks will be available while supplies last. Thermometers are available on buses and will be used as necessary.

Phase 2 – Bussing options may be limited. Parents may be asked to provide transportation services. Riders will have assigned seating and be distanced if possible. Masks will be strongly recommended and available if needed. Parents will be encouraged to take the temperature of their bus-riding learners prior to boarding the bus. If the temperature is at or above 100, the learners will not be allowed on the bus. Thermometers are available on buses and will be used as necessary. Drivers will sanitize buses in between routes.

Phase 3 – Bussing options may be limited. Parents may be asked to provide transportation services. Riders will have assigned seating and distanced when possible. Masks will be required and available if needed. Parents will be encouraged to take the temperature of their bus-riding learners prior to boarding the bus. If the temperature is at or above 100, the learner will not be allowed on the bus. Driver will check temperatures as riders enter the bus. Drivers sanitize buses in between routes.

Phase 4 - No face-to-face learning, therefore, no bussing is necessary.

EXTRA & CO-CURRICULAR ACTIVITIES CONSIDERATIONS & OPTIONS

Guiding Principles & Phased Approach

Phase	Phase I	Phase II	Phase III	Phase IV
