

BROOKINGS B.E.S.T.

Cynthia Murphy, Rebecca Nelsen, and Geof Furness

Opportunity Room Teachers at Mickelson Middle School

I wanted to take a moment to highlight the incredible dedication and hard work of Cynthia Murphy, Rebecca Nelsen, and Geof Furness, who undoubtedly deserve to win the B.E.S.T. Award for their outstanding contributions. Their unwavering commitment to our school community has made a significant impact on both students and teachers.

Cynthia, Rebecca, and Geof have consistently gone above and beyond, devoting extensive time and energy to help Mickelson Middle School students catch up with their missing assignments. By doing so, they've shouldered a considerable burden for our teachers, allowing them to focus more on effective things rather than managing incomplete work.

Their exceptional work in the Opportunity Room is an invaluable resource for our school. It's a place where students receive the support and guidance they need to bridge the gap in their learning. Cynthia and her team have created an environment where students can flourish, regain their confidence, and work towards their educational goals.

Cynthia, Rebecca, and Geof's dedication and commitment to the success of our students exemplify the qualities the B.E.S.T. Award seeks to recognize. They are tireless advocates for education, fostering an environment where every student has the opportunity to excel. They have demonstrated that their hard work and devotion make a tangible difference in our school community, and we are fortunate to have them as part of our team!
