

BSD Esports at BHS

Inaugural season for BHS and SDHSAA
2024-2025

A photograph of a computer lab with students. In the foreground, a student in a red hoodie sits at a desk with a large monitor, looking thoughtful. Behind him, other students are seated at desks with computers. The room has a white brick wall and a window with an air conditioner.

From discussions over the years

To a rapid start with humble beginnings.

Computers from PLTW – not used for several years but able to handle a couple of games (playing chess and Rocket League)

Former exercise room and Drivers Ed room

A photograph of a computer lab where students are playing games. Several students are seated at long wooden tables with multiple computer monitors. One student in the background is standing and looking at a screen. The room has a white brick wall and a window with an air conditioner.

Two Nintendo Switch stations (using existing portable TVs)

Updates
coming
quickly!

New computers – built by
Travis

Followed by mice,
controllers,
keyboards, and
finally gaming
CHAIRS!

The most important part present from the beginning – The Students!

We had over 40 students express and interest in participating in our first year! We had to limit some games by the number of machines we had: 2 teams of Super Smash Bros (single player games), 2 teams of MarioKart (2v2), 2 teams of Rocket League (3v3), 1 team of Minecraft Bedwars (4v4), and 5 students initially added to the team for chess, as well as 2 substitutes for MK

Many students
come in during
lunch to eat and
play or watch
others

Some come in after school (especially
during the season) and during flex or
Bobcat Time

And then there was the STATE Tournaments

Our two Mario Kart
teams and four Chess
teams qualified for
State in Aberdeen.

Third place in state for Chess!

Waylon Lowe

Thank you for your support!

It was a GREAT first Year!!
