School Board Report October 2024

A Great Place to Learn

Fire Prevention Month:

This past week our 1st grade students had the opportunity to learn from our local fire department regarding the importance of fire safety and how their jobs keep us all safe. A highlight included fire truck tours. Students had the opportunity to explore the vehicles and learn about the equipment firefighters use in emergencies. We also had several guest speakers from the local fire department who gave an informative presentation on fire safety, prevention, and the important role firefighters play in keeping our community safe.

These hands-on experiences not only taught our students valuable safety lessons but also inspired a sense of appreciation for the brave men and women who serve as firefighters. It was a fantastic afternoon of learning and community connection!

A School District of Excellence

We're Officially Open

We are thrilled to announce the successful ribbon-cutting ceremony at our new Medary Elementary School! The event on Wednesday, October 2nd marked the beginning of an exciting new chapter for our school community with students, staff, and local leaders in attendance. The new facility is not only a stunning addition to the neighborhood but also a symbol of our commitment to providing innovative and dynamic learning spaces for our students.

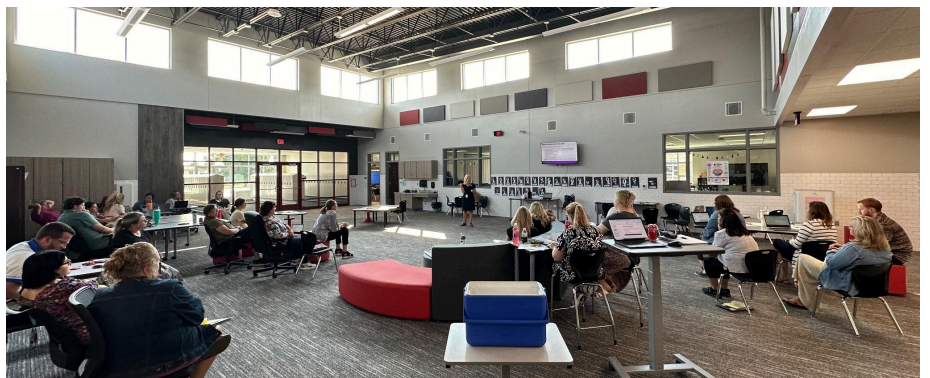

With state-of-the-art classrooms, collaborative workspaces, and cutting-edge technology, this building is designed to inspire creativity, critical thinking, and a love of learning. We are excited about the future and the incredible opportunities this space will offer as we continue to prepare our students for success in an ever-evolving world.

Here's to the bright future of learning in our beautiful new school!

A Great Place to Collaborate

We recently reviewed the latest Acadience assessment data for each grade level, providing us with valuable insights into student performance across key literacy benchmarks. While the data highlights areas of progress, it also points to specific areas where additional support is needed.

As we look deeper into the results, our focus will be on formulating targeted lessons and interventions that directly address these specific student needs. By tailoring instruction in this way, we are confident that we can help every student grow and meet their academic potential. This data-driven approach will guide us in providing the most effective support for our students moving forward.
