

PART-TIME ENROLLMENT

The Board of Education recognizes the advantages of maturity, a broad academic base, socialization (association with peers), and access to co-curricular activities as beneficial to the great majority of learners. Therefore, the District does not encourage attempts to complete a course of study for graduation in less than four full academic years. However, the Board will accept modification of the four-year attendance requirements for high school graduation provided the learner has satisfactorily completed the credits for graduation as set forth by the State Board of Education and the Brookings School District 5-1.

Learners are required to earn ~~twenty-two (22)*~~ **their respective graduation requirement** credits throughout grades 9-12 to graduate from high school. It is possible to attend Brookings High School as a part-time learner, provided that the learner meets the procedures and conditions as specified in JF-R.

However, the Board will accept modification of the four-year attendance requirements for high school graduation in the second (2nd) semester of the senior year only provided the learner has satisfactorily completed the credits for graduation as set forth by the State Board of Education and the Brookings School District 5-1.
